Management Comments

"2017 was another year of outstanding performance for LGI Homes," said Eric Lipar, the Company's Chief Executive Officer and Chairman of the Board. "Our fourth quarter provided a solid finish with a record-breaking 5,845 homes closed for the year, achieving significant growth in revenues and active community count, and increasing basic earnings per share more than 45% over the prior year."

"As we turn our attention to 2018, we remain focused on delivering strong results. Ending January 2018 with home closings up 61% year-over-year, we believe we are poised to see continued growth in 2018 and believe we are well positioned to increase our revenues, community count and earnings per share, allowing LGI Homes to achieve our long-term goals and objectives of market leading returns for our stockholders. For the year, we expect to close between 6,000 and 7,000 homes and believe basic EPS will be in the range of \$6.00 to \$7.00 per share," Lipar concluded.

2017 Fourth Quarter Results

Home closings during the fourth quarter of 2017 increased 61.9% to 1,844 from 1,139 during the fourth quarter of 2016. Active selling communities increased to 78 at the end of the fourth quarter of 2017, up from 63 communities at the end of the fourth quarter of 2016.

Home sales revenues for the fourth quarter of 2017 were \$405.0 million, an increase of \$168.1 million, or 71.0% over the fourth quarter of 2016. The increase in home sales revenues is due to both the increase in the number of homes closed and an increase in the average home sales price.

The average home sales price was \$219,618 for the fourth quarter of 2017, an increase of 5.6% over the fourth quarter of 2016. This increase is largely attributable to changes in product mix, price points in new markets, and a favorable pricing environment.

Gross margin as a percentage of home sales revenues for the fourth quarter of 2017 was 24.4% as compared to 27.2% for the fourth quarter of 2016. Adjusted gross margin (non-GAAP) as a percentage of home sales revenues for the fourth quarter of 2017 was 25.8% as compared to 28.5% for the fourth quarter of 2016. This decrease is primarily due to a combination of increased home production and higher construction and lot costs partially offset by higher average home sales prices. Please see "Non-GAAP Measures" for a reconciliation of adjusted gross margin (non-GAAP) to gross margin, the most comparable GAAP measure.

Net income of \$35.6 million, or \$1.65 per basic share and \$1.43 per diluted share, for the fourth quarter of 2017 increased \$12.4 million, or 53.6%, from \$23.2 million for the fourth quarter of 2016. This increase is primarily attributable to the 61.9% increase in homes closed, the 5.6% increase in average home sales price, and operating leverage realized related to selling, general, and administrative expenses.

2017 Full Year Results

Home closings for the twelve months ended December 31, 2017 increased 40.4% to 5,845 from 4,163 during the twelve months ended December 31, 2016.

Home sales revenues for the twelve months ended December 31, 2017 increased 50.1% to \$1.3 billion compared to the twelve months ended December 31, 2016. The increase in home sales revenues is primarily due to the increase in the number of homes closed and an increase in the average home sales price.

The average home sales price was \$215,220 for the twelve months ended December 31, 2017, an increase of \$13,846, or 6.9%, over the twelve months ended December 31, 2016. This increase is largely attributable to changes in product mix, higher price points in certain new markets, and a favorable pricing environment.

Gross margin as a percentage of home sales revenues for the twelve months ended December 31, 2017 was 25.5% as compared to 26.4% for the twelve months ended December 31, 2016. Adjusted gross margin (non-GAAP) as a percentage of home sales revenues for the twelve months ended December 31, 2017 was 26.9% as compared to 27.8% for the twelve months ended December 31, 2016. This decrease is primarily due to a combination of higher construction costs and lot costs partially offset by higher average home sales price, and to a lesser extent due to 201 wholesale home closings during the twelve months ended December 31, 2017. Please see "Non-GAAP Measures" for a reconciliation of adjusted gross margin (non-GAAP) to gross margin, the most comparable GAAP measure.

Net income of \$113.3 million, or \$5.24 per basic share and \$4.73 per diluted share, for the twelve months ended December 31, 2017 increased \$38.3 million, or 51.0%, from \$75.0 million for the twelve months ended December 31, 2016. This increase is primarily attributable to the 40.4% increase in homes closed, a higher average sales price and improved operating leverage realized in 2017 related to selling, general, and administrative expenses.

Outlook

Subject to the caveats in the Forward-Looking Statements section of this press release, the Company offers the following guidance for 2018. The Company believes it will have between 85 and 90 active selling communities at the end of 2018, close between 6,000 and 7,000 homes in 2018, and generate basic EPS between \$6.00 and \$7.00 per share during 2018. In addition, the Company believes 2018 gross margin as a percentage of home sales revenues will be in the range of 24.0% and 26.0% and 2018 adjusted gross margin (non-GAAP) as a percentage of home sales revenues will be in the range of 25.5% and 27.5% with capitalized interest accounting for substantially all of the difference between gross margin and adjusted gross margin. The Company also believes that the average home sales price in 2018 will be between \$220,000 and \$230,000. This outlook assumes that general economic conditions, including interest rates and mortgage availability, in the remainder of 2018 are similar to those in the first quarter of 2018 and that average home sales price, construction costs, availability of land, land development costs and overall absorption rates for 2018 are consistent with the Company's recent experience.

Non-GAAP Measures

In addition to the results reported in accordance with U.S. GAAP, the Company has provided information in this press release relating to Adjusted Gross Margin.

Adjusted gross margin is a non-GAAP financial measure used by management as a supplemental measure in evaluating operating performance. The Company defines adjusted gross margin as gross margin less capitalized interest and adjustments resulting from the application of purchase accounting included in the cost of sales. Management believes this information is useful because it isolates the impact that capitalized interest and purchase accounting adjustments have on gross margin. However, because adjusted gross margin information excludes capitalized interest and purchase accounting adjustments, which have real economic effects and could impact the Company's results, the utility of adjusted gross margin information as a measure of the Company's operating performance may be limited. In addition, other companies may not calculate adjusted gross margin information in the same manner that the Company does. Accordingly, adjusted gross

margin information should be considered only as a supplement to gross margin information as a measure of the Company's performance.

The following table reconciles adjusted gross margin to gross margin, which is the GAAP financial measure that management believes to be most directly comparable (dollars in thousands):

	Three Months Ended December 31,			Year Ended December 31,			
	2017		2016	2017		2016	
Home sales revenues	\$ 404,975		\$ 236,830	\$ 1,257,960		\$ 838,320
