Management Comments

"We are proud to announce an outstanding quarter at LGI Homes highlighting record-setting closings, revenues, average home sales price, community count, net income and EPS," stated Eric Lipar, the Company's Chief Executive Officer and Chairman of the Board. "Based on these solid results during the first half of the year, increased demand for homeownership, and robust orders we believe we are well positioned to finish the year strong and are updating our guidance. For the full year 2017, we now anticipate to close more than 5,000 homes. In addition, we are raising the range of our full year EPS guidance to \$4.25 to \$4.75 per basic share."

2017 Second Quarter Results

Home closings during the second quarter of 2017 increased 34.0% to 1,511 from 1,128 during the second quarter of 2016. Active selling communities increased to 71 at the end of the second quarter of 2017, up from 56 communities at the end of the second quarter of 2016.

Home sales revenues for the second quarter of 2017 were \$324.2 million, an increase of \$101.5 million, or 45.6% over the second quarter of 2016. The increase in home sales revenues is due to both the increase in the number of homes closed and an increase in the average home sales price.

The average home sales price was \$214,545 for the second quarter of 2017, an increase of 8.7% over the second quarter of 2016. This increase is largely attributable to changes in product mix, price points in new markets, and a favorable pricing environment.

Gross margin as a percentage of home sales revenues for the second quarter of 2017 was 26.6% as compared to 26.5% for the second quarter of 2016. Adjusted gross margin (non-GAAP) as a percentage of home sales revenues for the second quarter of 2017 was 28.0% as compared to 27.8% for the second quarter of 2016. This increase is primarily due to a combination of higher average home sales prices and construction costs, and to a lesser extent a one-time reimbursement of costs associated with community development. Please see "Non-GAAP Measures" for a reconciliation of adjusted gross margin (non-GAAP) to gross margin, the most comparable GAAP measure.

Net income of \$32.2 million, or \$1.49 per basic share and \$1.39 per diluted share, for the second quarter of 2017 increased \$11.5 million, or 55.9%, from \$20.7 million for the second quarter of 2016. This increase is primarily attributable to the 34.0% increase in homes closed and the 8.7% increase in average home sales price.

Results for the Six Months Ended June 30, 2017

Home closings for the six months ended June 30, 2017 increased 15.2% to 2,272 from 1,972 during the six months ended June 30, 2016.

Home sales revenues for the six months ended June 30, 2017 increased 26.5% to \$487.1 million compared to the six months ended June 30, 2016. The increase in home sales revenues is primarily due to the increase in the number of homes closed and an increase in the average home sales price.

The average home sales price was \$214,388 for the six months ended June 30, 2017, an increase of \$19,060, or 9.8%, over the six months ended June 30, 2016. This increase is largely attributable to changes in product mix, price points in new markets, and a favorable pricing environment.

Gross margin as a percentage of home sales revenues for the six months ended June 30, 2017 was 26.7% as compared to 26.1% for the six months ended June 30, 2016. Adjusted gross margin (non-GAAP) as a percentage of home sales revenues for the six months ended June 30, 2017 was 28.0% as compared to 27.3% for the six months ended June 30, 2016. This increase is primarily due to a combination of leveraging our construction costs and lot costs with higher average home sales price. Please see "Non-GAAP Measures" for a reconciliation of adjusted gross margin (non-GAAP) to gross margin, the most comparable GAAP measure.

Net income of \$44.0 million, or \$2.05 per basic share and \$1.91 per diluted share, for the six months ended June 30, 2017 increased \$11.6 million, or 35.9%, from \$32.4 million for the six months ended June 30, 2016. This increase is primarily attributable to the 15.2% increase in homes closed and the 9.8% increase in average home sales price.

Outlook

Subject to the caveats in the Forward-Looking Statements section of this press release, the Company offers the following updated guidance for 2017. The Company believes it will have between 75 and 80 active selling communities at the end of 2017, close more than 5,000 homes in 2017, and generate basic EPS between \$4.25 and \$4.75 per share during 2017. In addition, the Company believes 2017 gross margin as a percentage of home sales revenues will be in the range of 25.0% and 27.0% and 2017 adjusted gross margin (non-GAAP) as a percentage of home sales revenues will be similar to previous years in the range of 26.5% and 28.5% with capitalized interest accounting for substantially all of the difference between gross margin and adjusted gross margin. The Company also believes that the average home sales price in 2017 will be between \$210,000 and \$220,000. This outlook assumes that general economic conditions,

including interest rates and mortgage availability, in the remainder of 2017 are similar to those in the first half of 2017 and that average home sales price, construction costs, availability of land, land development costs and overall absorption rates for 2017 are consistent with the Company's recent experience.

Non-GAAP Measures

In addition to the results reported in accordance with U.S. GAAP, the Company has provided information in this press release relating to Adjusted Gross Margin.

Adjusted gross margin is a non-GAAP financial measure used by management as a supplemental measure in evaluating operating performance. The Company defines adjusted gross margin as gross margin less capitalized interest and adjustments resulting from the application of purchase accounting included in the cost of sales. Management believes this information is useful because it isolates the impact that capitalized interest and purchase accounting adjustments have on gross margin. However, because adjusted gross margin information excludes capitalized interest and purchase accounting adjustments, which have real economic effects and could impact the Company's results, the utility of adjusted gross margin information in the same manner that the Company does. Accordingly, adjusted gross margin information should be considered only as a supplement to gross margin information as a measure of the Company's performance.

The following table reconciles adjusted gross margin to gross margin, which is the GAAP financial measure that management believes to be most directly comparable (dollars in thousands):
