Management Comments

"This has been a phenomenal year to date and our results have been outstanding," said Eric Lipar, the Company's Chief Executive Officer and Chairman of the Board. "With a record-setting 1,729 home closings during the third quarter, we continued our trend of strong results and profitability highlighted by above average absorption of 7.6 closings per community per month. These results are a direct reflection of the dedication of our employees and our effective systems and processes that have enabled us to expand and replicate our success."

Lipar concluded, "Based on our solid results during the first nine months of the year, we are well positioned to end the year very strong and are therefore raising our guidance. For the full year 2017, we now anticipate to close more than 5,400 homes and believe basic EPS will be in the range of \$4.75 to \$5.15 per basic share."

2017 Third Quarter Results

Home closings during the third quarter of 2017 increased 64.4% to 1,729 from 1,052 during the third quarter of 2016. Active selling communities increased to 77 at the end of the third quarter of 2017, up from 59 communities at the end of the third quarter of 2016.

Home sales revenues for the third quarter of 2017 were \$365.9 million, an increase of \$149.6 million, or 69.2% over the third quarter of 2016. The increase in home sales revenues is due to both the increase in the number of homes closed and an increase in the average home sales price.

The average home sales price was \$211,623 for the third quarter of 2017, an increase of 2.9% over the third quarter of 2016. This increase is largely attributable to changes in product mix, price points in new markets, and a favorable pricing environment.

Gross margin as a percentage of home sales revenues for the third quarter of 2017 was 25.1% as compared to 26.3% for the third quarter of 2016. Adjusted gross margin (non-GAAP) as a percentage of home sales revenues for the third quarter of 2017 was 26.5% as compared to 27.7% for the third quarter of 2016. This decrease is primarily due to a combination of higher construction costs, and to a lesser extent due to 96 wholesale home closings during the third quarter of 2017, partially offset by higher average home sales prices. Please see "Non-GAAP Measures" for a reconciliation of adjusted gross margin (non-GAAP) to gross margin, the most comparable GAAP measure.

Net income of \$33.7 million, or \$1.55 per basic share and \$1.40 per diluted share, for the third quarter of 2017 increased \$14.2 million, or 73.0%, from \$19.5 million for the third quarter of 2016. This increase is primarily attributable to the 64.4% increase in homes closed, the 2.9% increase in average home sales price, and operating leverage realized related to selling, general, and administrative expenses.

Results for the Nine Months Ended September 30, 2017

Home closings for the nine months ended September 30, 2017 increased 32.3% to 4,001 from 3,024 during the nine months ended September 30, 2016.

Home sales revenues for the nine months ended September 30, 2017 increased 41.8% to \$853.0 million compared to the nine months ended September 30, 2016. The increase in home sales revenues is primarily due to the increase in the number of homes closed and an increase in the average home sales price.

The average home sales price was \$213,193 for the nine months ended September 30, 2017, an increase of \$14,288, or 7.2%, over the nine months ended September 30, 2016. This increase is largely attributable to changes in product mix, price points in new markets, and a favorable pricing environment.

Gross margin as a percentage of home sales revenues for the nine months ended September 30, 2017 was 26.0% as compared to 26.1% for the nine months ended September 30, 2016. Adjusted gross margin (non-GAAP) as a percentage of home sales revenues for the nine months ended September 30, 2017 was 27.4% as compared to 27.5% for the nine months ended September 30, 2016. This decrease is primarily due to a combination of higher construction costs and lot costs offset by higher average home sales price, and to a lesser extent due to 168 wholesale home closings during the nine months ended September 30, 2017. Please see "Non-GAAP Measures" for a reconciliation of adjusted gross margin (non-GAAP) to gross margin, the most comparable GAAP measure.

Net income of \$77.7 million, or \$3.60 per basic share and \$3.32 per diluted share, for the nine months ended September 30, 2017 increased \$25.8 million, or 49.9%, from \$51.8 million for the nine months ended September 30, 2016. This increase is primarily attributable to the 32.3% increase in homes closed, the 7.2% increase in average home sales price, and operating leverage realized related to selling, general, and administrative expenses.

Outlook

Subject to the caveats in the Forward-Looking Statements section of this press release, the Company offers the following updated guidance for 2017. The Company believes it will have between 75 and 80 active selling communities at the end of 2017, close more than 5,400 homes in 2017, and generate basic EPS between \$4.75 and \$5.15 per share during 2017. In addition, the Company believes 2017 gross margin as a percentage of home sales revenues will be in the range of 25.0% and 27.0% and 2017 adjusted gross margin (non-GAAP) as a percentage of home sales revenues will be similar to previous years in the range of 26.5% and 28.5% with capitalized interest accounting for substantially all of the difference between gross margin and adjusted gross margin. The Company also believes that the average home sales price in 2017 will be between \$210,000 and \$220,000. This outlook assumes that general economic conditions, including interest rates and mortgage availability, in the remainder of 2017 are similar to those in the first nine months of 2017 and that average home sales price, construction costs, availability of land, land development costs and overall absorption rates for 2017 are consistent with the Company's recent experience.

Non-GAAP Measures

In addition to the results reported in accordance with U.S. GAAP, the Company has provided information in this press

release relating to Adjusted Gross Margin.

Adjusted gross margin is a non-GAAP financial measure used by management as a supplemental measure in evaluating operating performance. The Company defines adjusted gross margin as gross margin less capitalized interest and adjustments resulting from the application of purchase accounting included in the cost of sales. Management believes this information is useful because it isolates the impact that capitalized interest and purchase accounting adjustments have on gross margin. However, because adjusted gross margin information excludes capitalized interest and purchase accounting adjustments, which have real economic effects and could impact the Company's results, the utility of adjusted gross margin information as a measure of the Company's operating performance may be limited. In addition, other companies may not calculate adjusted gross margin information in the same manner that the Company does. Accordingly, adjusted gross margin information should be considered only as a supplement to gross margin information as a measure of the Company's performance.

The following table reconciles adjusted gross margin to gross margin, which is the GAAP financial measure that management believes to be most directly comparable (dollars in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Home sales revenues	\$ 365,896	\$ 216,304	\$ 852,985	\$ 601,490
Cost of sales	274,000	159,483	631,242	444,205
Gross margin	91,896	56,821	221,743	157,285

(a) Adjustments result from the application of purchase accounting for acquisitions and represent the amount of the fair value step-up adjustments included in cost of sales for real estate inventory sold after the acquisition dates.

(b) Calculated as a percentage of home sales revenues.
